CAPABILITY STATEMENT

About Us:

Connector LLC is a RI owned and operated small business. Connector develops and promotes services. Connector develops web and app based services that give people greater access to patient care, streamlining intake services, and helping organizations gauge their members exposure to COVID-19. Covid Test Connector (CTC) gauges risk for groups to COVID-19. The “Active Treatment Listings” (ATL) service, an enterprise wide, scalable online response facilitating communication between referral sources and treatment providers. “Our online community building platform enables high performance anonymous peer interactions in support recovery”

System Features

- **Enterprise Wide-** internet solution for patient engagement and group dynamics
- **Flexible-** enables user formation of customized online prevention and support groups
- **Scalable-** small group or enterprise wide
- **Timely-** Active Treatment Listings are current within 24 hours
- **Sustainable** membership subscription service-based model allows program to affordably function beyond any grant award funding
- **Efficient** access to treatment facilities taking new patients low cost to providers
- **Ethical-** ATL fees are not performance based,
- **HIPAA compliant-** Connector does not collect personalized patient information

Differentiators

- **Community** pages give providers, peers and those in recovery a safe place to communicate
- **Stigma Free-** Peer group members are anonymous, lowering stigma and promotes interactions
- **Plug and Play** up to date “Active Treatment Listings” (ATL) directory for addiction and mental health treatment
- **Improves patient engagement,** streamlines the process for intaking new patients (ATL)
- **Active Treatment Listings** (ATL) platform improves upon existing static directories
- **The Web Community** allows active members to interact in support of one another to reinforces their recovery efforts
- **Subscription based** low cost option
